Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Sunday 07 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy but largely dry on Sunday, patchy rain on Monday.

Today:
A cold start for many, with a widespread frost clearing through the morning. Largely fine and dry with light winds, but often cloudy with limited sunny spells. Some patchy light rain likely in Northumberland during the afternoon. Maximum temperature 9 deg C (48 deg F).

Tonight:
Generally cloudier with patchy light rain overnight, particularly over the hills whereas remaining largely dry in eastern parts. Not as cold as previous night. Minimum temperature 4 deg C (39 deg F).

Monday:
Largely cloudy with further outbreaks of light rain, particularly in the northwest of the region. Drier and brighter along coastal areas. Slightly milder. Maximum temperature 10 deg C (50 deg F).

Outlook for Tuesday to Thursday:
Rather cloudy on Tuesday, with patchy drizzle and hill fog over western hills, largely dry elsewhere. Mild but wet and windy Wednesday and Thursday, with gales possible for a time.
